## Sadman – The big cut – new CD album

Memento Materia are very proud to announce the physical release of the third album from Swedish alternative electro/pop/rock act Sadman. Listen to a band re-inventing itself, adding even more depth and vigour with two new members, presenting you with their strongest most dynamic tracks ever.

The proof can be found in no less than three impressive singles, all with accompanying videos (watch them all at [www.mementomateria.com](http://www.mementomateria.com)), released throughout November and December 2015.

Sadman's third album "The big cut", released on the 16<sup>th</sup> January 2016, includes a total of 14 fascinating and vibrant tracks reminding you of acts such as Depeche Mode and Radiohead.

The album is also accompanied by a [dark and daunting video of the track "Dark night" directed by Ronny Beck](#). This is a fantastic visual rendition of an album that brings you on a mesmerizing and sometimes surprising journey.

Sadman's new release can be found on all known streaming platforms such as Spotify and Apple Music.
